This book is the only marrative of Arolio Explorations taken from Sir John Franklin's private gapers and is invaluable to every library, 'amily or individual in the hand.

Handsomely bound in one large 12mo volume of 400 pages, with beautiful frontlipiace in oil colors. Price 4 25.

There is something so inexpressibly toushing in the contemplation of the sof fate of Sir John Franklin that it would appear to be only necessary to call attention to this work to give it a place on every book-shelf in the country. To say that it do serves to be read by every one, young or old, throughout the land, is but faint praise; that every one would be the better for reading it, is sorie; not asying too much. It has a peculiar value and interest as being the only narrative compiled from Franklin's arpivate papers. His terrible hatchings and suffering are told in his own words. We see in every page that indomitable pervevenance and untiring energy which no amount of suffering could bleck, or turn from the object to which he devoted his life and for which he scrinced it—the advancement of science, and the benefit of manklin, in a full secount of those unocasing efforts to discover the fate of her husband, which have made her name a household word in every corner of the earth.

Orders from the trade solicited.

"We believe we are not going too far when we say that Mr. Marth's book is the best treatine of the hind in the language. It abounds in nice ritti ism and elegant discussion on matters of sate, showing in the author a happy expectly for esthetic distinction, as well as for limphitic attainment.

Attended to a mixed auckince, to the latty rather than to students, these Lectures are more popular than schoiatile in their chareter. We have spoken warmly of this volume, for it has both interested and instructed as "—] Attantic Manthly.

"These Lectures could have been written only by one himself profoundly versed to the department of knowledge to which they relate. The style is graceful and attractive—the opinions are sound and ably vindleated—the purest taste as to words, tioms, and authors pervades the entire work. So much learning and wisdom, weighty thought, and just criticism, have seldom been condensed into an equal space, and all more rarely grace and all more rarely grace, and all more rarely grace and all more rarely grace, the law which it expended in a form so well adapted to all classes of intelligent readers." For pages 15 and of interest from the information which it imparts, or the analogy which it traces, the law which it error pounds, the knowledge of our common nature which it displays; and the lucid ctyle of the writer, the richness of his thought, the spiness of his liturations, and when are occasions offers, his gleans of humor, and delicate (though on that account not less pungent) satire, diffuse their charm stronghout this work.

Mr. Maran a book is that of a marter."—IN. Y. Albien. The book upon which the scholar rang feath, which it work is a rich mine of pages and and amples formation to every meeting the figure of By the Hon. GEORGE P. MARSH. Offsgolume, octavo. 760 pages. Price \$2.
